# LIAM GALLAGHER & JOHN SQUIRE

---

**Liam Gallagher** has teamed up with **John Squire** as they release their first single together, **'Just Another Rainbow'**, with more new music to follow as the year unfolds.

John says, *"To me the most obvious take on 'Just Another Rainbow' is that it's about disappointment, and the sentiment is that you never get what you really want. But I don't like to explain songs, I think that's the privilege of the listener, it's whatever you want it to be. To me, it's also one of the most uplifting tracks we've made together, which is weird."*

Liam adds, *"I think John's a top songwriter. Everyone always bangs on about him as a guitarist, but he's a top songwriter too, man, no two ways about it as far as I'm concerned. There's not enough of his music out there, whether it's with the Roses or himself. It's good to see him back writing songs and fucking good ones. The melodies are mega and then the guitars are a given. But I think even when you take all the fucking guitars off, you can play the songs all on acoustic and they'll all still blow your mind."*

# NORMANDIE

As the clock struck midnight and 2024 began, Stockholm trio, **Normandie**, released **'Sorry'**, the latest single from their forthcoming new album, **'Dopamine'**, set for a February 9th 2024 release.

'Sorry', follows recent singles, 'Butterflies', 'Flowers For The Grave', 'Blood In The Water', 'Hourglass' and 'Ritual', in-keeping with the band's 'Dopamine Clinic', which sees new songs 'prescribed' on the first of every month leading up to album release.

*"Sorry" is about a one sided relationship,"* shares frontman Philip Strand. *"You're so stuck to this person that no matter the pain, you just can't be the one to break it off, so you're begging to be left."*

# BRING ME THE HORIZON

**Bring Me The Horizon** will shortly be taking over some of the UK's largest venues, and fans heading along now have a new song to sink their teeth into!

As we all await further details on upcoming release, **'POST HUMAN : NEX GEN'**, we can all drink the **'Kool-Aid'** with the groups latest pre-release single.

## CASEY

**Casey** have unveiled new single '**Selah**', the final glimpse of their new album, '**How to Disappear**', to be released 12th January.

Vocalist Tom Weaver comments: *"My overwhelming feeling towards religion is that at its best it provides a sense of belonging and community; and at its worst it serves to absolve accountability. In moments of crisis, I've often posed that question of "If you're there, why are you doing this to me?"*

*"'Selah' articulates that question with examples from my life. Near-death experiences or moments of pain that feel as though they shouldn't happen beneath the benevolent gaze of something greater."*

## SMASH INTO PIECES

**Smash Into Pieces** release their next epic single, '**Trigger**', and officially announce their next forthcoming full-length album, '**Ghost Code**', slated for release on April 12th.

## ANY GIVEN DAY

Metalcore behemoths **Any Given Day** have released their new single '**Come Whatever May**'.

The track is taken from their upcoming album '**Limitless**' which is due for release on 26th January!

## VENUES

German post-hardcore quartet **VENUES** have released a video for their new single '**Radiate Me**'!

Vocalist Robin comments: *"The last year was quite tough for me, as my mother was diagnosed with two types of cancer. She immediately took up the fight and underwent chemotherapy, which was extremely hard on her. I drove her to various hospitals time and again, took care of the household, and cared for her as a person. But primarily, I saw her suffer and what the poison of this treatment did to her. The chemotherapy almost killed her. 'Radiate Me' is all of that in one song. As it stands now, she is doing well and we all hope that it stays that way. F\*ck cancer!"*

# FRANK TURNER

---

**Frank Turner** has shared the first taste of new music coming this year with new track, **'No Thank You For The Music'**!

Turner says *"I spent the summer of 2023 in the studio at the end of my garden making a new record, my tenth. It feels like a moment of rejuvenation: a new album, my first with Callum on drums, my first back home with a global independent label setup (still with Xtra Mile of course), my first with the pandemic firmly behind us, the first one I've produced myself"*

*There's going to be a lot more information, fanfare and of course music in the coming months, but let's kick this off. Here's a song from the new album; a song about defiance, rejection of mainstream culture, pride in the underground, and staying angry as you get older."*

# PET NEEDS

---

**Pet Needs** are gearing up to release their third studio album, **'Intermittent Fast Living'**, on February 16th.

On New Year's Eve, the band share the latest pre-release single, **'The Optimist'**, which is suitable as the band will be optimistic about the chances of success for the album!

## YONAKA

**Yonaka** have kick-started 2024 with their fantastic new single, **'Predator'**.

The group released latest EP, **'Welcome to My House'** last year and will be taking their new music on the road in March!

## CAST

**Cast** fire into 2024 by sharing the new single **'Far Away'** from their upcoming album **'Love Is The Call'**.

John Power says, *"'Far Away' is a classic pop song, all jangling guitars with an instant hook line and melody that lifts off from the word go. The song is about trying to find your voice in a world that doesn't care or seem to want to listen. As the world turns into the shadows, the sun still burns so far away, and the dreams you keep until tomorrow, they sometimes feel so far away."*

PHOTO CREDIT: JASON BRIDGES

## TROY REDFERN

Slide guitar virtuoso **Troy Redfern** shares new single, **'The Strange'**, from upcoming album, **'Invocation'**, which is out May 17th!

Says Troy, *"The Strange is about the realisation that a relationship is falling apart in slow motion. Despite how difficult it may seem to break away, it's about the sense that life is slipping by is an ever-present feeling."*

## THE LEMON TWIGS

**The Lemon Twigs** release new single, **'My Golden Years'**.

As the brothers describe it, the track is a power-pop anthem about *"making every minute count and living up to your potential."* They continue, joking that, *"in that sense I think that people like Mark Ruffalo or people who hike might like the song. Or it could be good while you're working out."*

# GREEN DAY

---

**Green Day** are ringing in the new year with fiery new track, **'One Eyed Bastard'**. The electrifying track is the band's final offering ahead of their 14th studio album **'Saviors'** – coming 19 January, 2024.

*"One Eyed Bastard started off as just a riff that I had -- a shuffle, almost like a Black Sabbath kind of riff. Lyrically, I was just reflecting on bad times in life," shared Billie Joe Armstrong. "That's the thing about nostalgia, sometimes you think, "That was an awful time." Everybody's got that ugly place in their life where they have to deal with ugly thoughts -- it could be like revenge or whatever. Thankfully, I have an outlet in songwriting."*

# ALKALINE TRIO

---

**Alkaline Trio** reveals a darker dimension of its forthcoming new album with **'Versions of You'**, the third advance offering from **'Blood, Hair, and Eyeballs'**, out January 26.

Dan Andriano recalls the song's genesis, *"From the start there was something really exciting about this one, a raw energy we didn't want to let go. I was playing guitar and showing a part to Cameron, Matt grabbed a bass and created this killer disjointed groove under what became the verse. It felt raw and ferocious, and we knew that's what we had to capture, so that's how we did it when the red light came on."*

## MOUTH CULTURE

Fresh off a UK tour supporting Teenage Wrist, as well as shows with a whole host of artists from While She Sleeps to Honey Revenge, fast-rising Leicester-based trio **Mouth Culture** have announced a UK headline tour in February / March 2024.

The band say "We just ended 2023 on the biggest high, releasing our EP 'Mishaps Of My Mid Twenties', a sold out tour with Teenage Wrist and then topping it off with a sold out show at the Octagon in Sheffield with While She Sleeps. It's bucket list stuff, and we are ready to take this record out on some headline shows, to a whole load of places we have never been before."

Audiences at this year's 52nd Mountbatten Festival of Music (MFM) at the Royal Albert Hall in March are in for an extra special treat when global drumming icon of Iron Maiden fame, **Nicko McBrain**, takes to the stage to join The Massed Bands of His Majesty's Royal Marines.

Commenting on what might seem an unlikely combination of talents, Nicko says: "It is such an honour to be invited to perform with the Massed Bands of His Majesty's Royal Marines at the 2024 Mountbatten Festival of Music. I feel so humbled to be a part of this fantastic event. I look forward to seeing you all at the Royal Albert Hall in March to enjoy rockin' out to some Maiden ditties along with a few fantastic surprises!"

# WELCOME 2024

After rounding up 2023 in last week's magazine, this week we look forward into the year that will be 2024! There is plenty to get excited about as we get ready to make new memories and love new music, so over the following pages we will dive into the events and bands that will stand out in this new year.

We've handpicked twelve artists that we believe will have big years in 2024 including the winners of our 2023 'Discover' New Artist of the Year – **Rituals!** The band already have headline dates in the calendar and you can expect them to capitalise on the momentum behind them. The same can be said of **Lake Malice** who won our 'EP of the Year' during their breakthrough year. This year though we fully expect them to breakout and become one of the hottest names on the scene.

Speaking of headline tours, you can also expect to catch **Mouth Culture**, **The Nightmares** and **KITE THIEF** out making waves. There's new music on tap from **Gen and the Degenerates**, **Unpeople** and **Interlaker**, and we can't wait to see what **BIG SPECIAL**, **Kid Bookie**, **HotWax** and **Tropic Gold** have in store for 2024.

Having just revealed our 2023 Album of the Year list, we are already daunted by the prospect of compiling our 2024 list given that the likes of **IDLES**, **Bob Vylan**, **Bring Me The Horizon**, **Green Day** and **Sum 41** all have big records coming our way.

There will be plenty of bigger acts on this road this year with the likes of **Slipknot**, **Nickelback** and **Limp Bizkit** coming to the UK. Homegrown talent like **PET NEEDS**, **Frank Carter & The Rattlesnakes**, **Creeper** and **Enter Shikari** will also ensure that there is plenty of opportunity to head to a show or fifty!

Festivals as usual will be bringing lots of talent together in one place and we seriously recommend that you take a look at the line-ups for **Download**, **Slam Dunk**, **2000trees**, **Takedown**, **Victorious** and **Latitude** over the coming pages!

Yes, 2024 is here and we can't wait to get stuck in...

### Chloe Star - 'Happy Place'

Rising alt-pop act **Chloe Star** returns with her new single, **'Happy Place'**!

Following "Fool" and "Found My Peace," her new electrifying single, "Happy Place," is the third in her trilogy of confessional tracks that explore lingering effects of a toxic relationship: *"I tell a story with these 3 songs — the heartbreak, the awakening, and the release," she says. "Fool" details the breakdown of the relationship, "Found My Peace" sees Chloe emerging from the ashes of heartbreak, and, finally, "Happy Place" is about finding freedom in healing. "'Happy Place' is about that feeling of relief that you experience when you finally feel comfortable being on your own," says Chloe. "That's 'Happy Place.'"*

### Where Oceans Burn - 'Static'

Manchester metalcore act **Where Oceans Burn** share new single, **'Static'**, featuring **Aaron Matts** of **ten56.**!

The band comments: *"Static is about going through a dark period and abusing substances and the inner dialogue in my head. Chasing a false feeling of happiness to escape issues I wasn't ready to face."*

### Grieving - 'Tarpaulin'

Cambridge's **Grieving** have announced their debut album, **'Everything Goes Right, All At Once'**, will arrive on March 15th.

The band also share a new single, **'Tarpaulin'**, a song that bassist Jack Hurst attributes to: *"personally approaching a sense of self-doubt, and accepting that certainty in life is rarely exactly that."*
